JDT ISLAM ORPHANAGE & EDUCATIONAL INSTITUTIONS

Jam 'iyyat Da' wa Tablighul Islam, better known in brief, as JDT ISLAM is a charitable, cosmopolitan and educational institution, established in the year 1922, recognized and aided by both the Kerala Government and the Government of India and Managed by a registered committee. It is one of the oldest and renowned Orphanages in the Malabar region, idealized and formed by intellectual stalwarts with the idea in mind of the welfare, care and uplifting of the innumerable orphaned and destitute children, in and around the country, from their educational and economical backwardness and poverty.

Even though it commenced functioning as an Orphanage, with the intention to shelter, feed and care for these unfortunate and miserable children, who were the offspring of the bygone Malabar Rebellion, today, JDT Islam has journeyed a long way to attain its present position and status, as a well-run and well-maintained orphanage, known for its determination and dedication for its uncompromising quality of education, made possible through much hardships and trials earlier and was able to make its mark, winning a wider acceptance and acclaim in the whole of Malabar. It has also paved the way for the institution to enjoy an enviable level of status in the society, both in the educational and service sectors.

Backed by its professionalism, coupled with the experience and expertise, the institution has completed its eight long and glorious decades of yeoman service for the welfare of humanity, at large. It is really noteworthy to mention here, that with the single-minded devotion and unflinching effort, the organization was able to teach, transform and assist as many as 25,000 orphans, as its inmates, presently, who lacked the means to live and lead a normal life, as well as, ease and smoothen out their thorny paths in life. The institution also received the first ISO 9001:2000 Certification for Orphanage in India, particularly for its management, relating to the provision of education, housing and connected activities, from the Germanischer Lloyd Certification GmbH, Hamburg, Germany.

School for Differently Abled Estd. 2010

Education plays an imperative role to foster social development. Catering efficaciously to the academic needs of those who seem to be deprived of certain elementary human faculties is hence crucial. This was the key aspect that instilled fervent zeal in the charitable endeavors of JDT Islam to establish its School for Differently Abled. This institution caters comprehensive growth to the differently abled children who are Mentally Challenged, Cerebral Palsied, Learning Disabled, Multiple Handicapped, Visually Impaired, Hearing Impaired, Loco motor Disabled etc. They are proficiently aided with all the scientifically advanced services. The school has clutched the grip of public notice as a pioneering initiative to bridge the gap of social disparities. The construction of a huge building for the School for Differently Abled with all the infrastructural and technical ailments vital for fulfilling the intellectual, physical, emotional and psychological growth of such children is at present going on in a brisk pace.

JDT ISLAM MADRASSA & PRIMARY SCHOOL

The Madrasa and primary school has been designed by international award winning studio, Collaborative Architecture, Calicut, headed by Lalita and Mujib.

The project since then has become one of the bench mark institutional projects in the country For its sheer innovation and out of the box educational space design.

The project has won the coveted SEED (Social Economic Environmental Design) International Award in 2012, for its socially responsible design and the architects ability to percolate an 'all-inclusive innovation' where budget and resources were limited.

It also won the NDTV Design & Architecture award of the Year 2014, again for its socially relevant design. The jury was highly appreciative, that an orphanage could commission an international standard project, with their limited resources, where bulk of the educational spaces designed around the globe lack character and commitment to explore future possibilities of design innovations in academic spaces.
